- Capacity for 78 fingerprints users, especially suitable for children and the old to use.
- Free rotating handle to avoid violent damage when it keeps working state.

### Performance Index:

Logo Area:	18.2mm(L)X16mm(W)
False Identification Rate(FAR):	<0.0001%
Maximum Capacity of Templates:	150
Start Time:	1 second
Encoding Time:	<1.0 second per encoding
Driving Time:	<0.2 second
Resolution Factor:	560 dpi
Power Consumption Suitable for Battery Operation	<400mA (driving) <100mA(activity) <40uA(static)
Operating / Reserve Voltage:	9v
Warning Voltage:	4.8v
Antistatic Voltage:	>15000v
Working Temperature:	-20°C-60°C(outdoor)
Password Capacity:	78 people
Password Length:	8 bytes
Password Set Up:	Be Able to Change Any Combination
Unlock Ways :	Standard: Fingerprint + Code + Mechanical Key
