

HS13-d500

Intelligent Fingerprint Lock with OLED Display and USB interface

Features

- * Simple menu, easy operation, intelligent communication
- * Zinc alloy die-casting
- * Can be opened by fingerprint, card, PIN or Key
- * European standard lock mortise.
- * OLED display and USB interface.
- * Front mask color option: blue, black, pink, grey and silver polishing
- * 500 user templates, 100 passwords, 100 cards, 30,000 user capacity.
- * 4*1.5V AA battery.

Specifications:

Model	HS13-D5000
Material	Zinc Alloy
Display	OLED
Fingerprint Sensor	HS Optical Sensor
Resolution	500 dpi
Storage	
• Fingerprint templates	500
• Password	100
• Event capacity	30,000
ENROLLMENT & VERIFICATION	
• Methods	Fingerprint, Password, Card(optional)
• Length of password	6~10 digits
Communicating Method	USB flash disk
Operating Environment	
• Temperature	-10°C ~ 45°C
• Humidity	20 %~ 80%
• Power input	4 x 1.5V AA Battery
• Low battery warning voltage	< 4.8V
Backup Unlock Mechanism	Emergency battery & Mechanical key
Product Dimension (L x W x H)	(310*72*34 mm)
