# HS13-031

Introduction

HS13-031, one of innovative biometric fingerprint reader for access control applications, offers unparalleled performance by using an advanced algorithm for reliability, precision and excellent matching speed.

As a terminal designed for users who have common access control requirement, it can operate on standalone mode with the interface for third party electric lock, exit button, door sensor, alarm and bell.

Keypad operation on the device is easy and convenient, such as enroll user, delete user and access control parameter settings etc.

Features:

Standard ID card / Mifare card as optional feature

Password capacity up to 8 groups

1 touch a-second user recognition

Reads fingerprint/password/card

Rugged and elegant design

Specifications:

Card Capacity : 2000

Fingerprint Capacity : 200

Operating Temperature : 0ºC to 40ºC

Sensor : HS Optical Sensor

Algorithm Version : HS Finger V10.0

Access Control Interface : 3rd party electric lock, exit button, door sensor, alarm and bell

Dimension(L*W*H) : 88*88*35mm

Configuration:
